SPACE RENAISSANCE INTERNATIONAL: ENGAGING CITIZENS FOR EXPLORATION

**Abstract**

Summary: We describe Space Renaissance International with a number of Space4All initiatives contributing to SDGS, public engagement, Research and Innovation. WorkForce Development, Diversity, Equity, Inclusion, Accessibility.

What is SRI Space Renaissance International ? <https://spacerenaissance.space/>

Space Renaissance International SRI, is a no profit organization philosophy-based, founded in 2010, held by volunteers - The SRI movement exists since 2008 - Present in 5 continents and 25 countries - Prof.

Bernard Foing is the President, elected in July 2021, during the 3 World Congress - Adriano V. Autino is founder, Exec Director / Strategy - The organization has three main directive organs: the President, the Board of Directors, the Assembly of the Members (<https://spacerenaissance.space/board/>) - A Board of Advisors

What does SRI Space Renaissance ? 1-SRI promotes the expansion of civilization into outer space; 2-SRI connects Aerospace and New Space companies, individuals, institutions and space agencies to boost technological development for civil expansion into space; 3-promotes economic, cultural, political relationships between its members and their services, products and capitals; 4-develops education and outreach initiatives worldwide 5-integrating science, philosophy, arts 6-new vision and perspective of an open world, a Solar Civilization, including the geo-lunar space and beyond, our whole Solar System.

SRI services to members: individuals, corporates 1-Networking: Sharing experiences and getting to know new partners: contacts fuel business and are key to success. 2-Business: Supporting business growth through the expansion of international relations. 3-Advocacy: Acting as an intermediary between companies and institutions to ensure that the issues addressed are submitted to the most appropriate decision makers 4-Social: updating social analysis on the status of civilization, status and perspectives of civil economic and social growth, perspectives of expansion into outer space 5-Education Outreach: Space Renaissance Academy develops studies, webinars, courses on space humanist philosophy, science and space art.

SRI action plan focus 2021 – 2025 from the 2021 Congress: 1- Not going back, but going forward to the Moon 2- Develop proper industrial infrastructure to produce fuel in space 3- Space debris recovery and reuse. 4- Enhance life protection in space. 5- Start experimenting with simulated gravity. 6- Target younger generations 7- Supporting the development of 1008- Produce food in space. 9- Space Safety. Protection 10- Support the space tourism industries 11- Space Based Solar Power. 12- Support space related art 13- To add an 18th SDG, bootstrap the civilian space development - Space4All on Earth and Beyond
